

PVC DWV FITTINGS

PRODUCT SPECIFICATION

SCOPE

This specification covers PVC DWV fittings used in sanitary drain, waste, and vent (DWV), sewer, and general drainage applications. This system is intended for non-pressure applications where the operating temperature will not exceed 140° F.

SPECIFICATION

Fittings shall be manufactured from virgin rigid PVC compounds with a cell class of 12454 as identified in ASTM D1784. Injection molded PVC DWV fittings shall conform to ASTM D2665. All systems shall utilize a separate waste and vent system. Fittings shall conform to NSF Standard 14.

INSTALLATION

Installation shall comply with the latest instructions published by Genova and shall conform to all applicable codes and requirements. Solvent cement joints shall be made in a two-step process with primer conforming to ASTM F656 and solvent cement conforming to ASTM D2564. The system of installation shall be protected from chemical agents, fire-stopping materials, thread sealant, or other aggressive chemical agents not compatible with PVC compounds.

Sizes	1-1/4", 1-1/2", 2", 3", 4", 6"
Color	White
Product Standard	ASTM D2665
Material Standard	ASTM D1784, Cell Class 12454
Fitting Patterns	ASTM D3311
Threads	ASTM F1498
Certifications	NSF 19505, ICC-ES PMG-1577
